MATERIAL SELECTION

Colorful finishes turn a blah kitchen into something special.

writer KRISTINA MCGUIRK
photographer JASON DONNELLY
illustrator ANN WEISS

THE PROBLEMS

1. Closed off by a peninsula, the layout lacked a flow conducive to cooking while entertaining.
2. Small windows limited natural light and outdoor views.
3. Although in good condition, the white-on-white kitchen had no personality.
4. The limited countertop space near the main work core felt crowded by overhead cabinetry and appliances opening into the area.

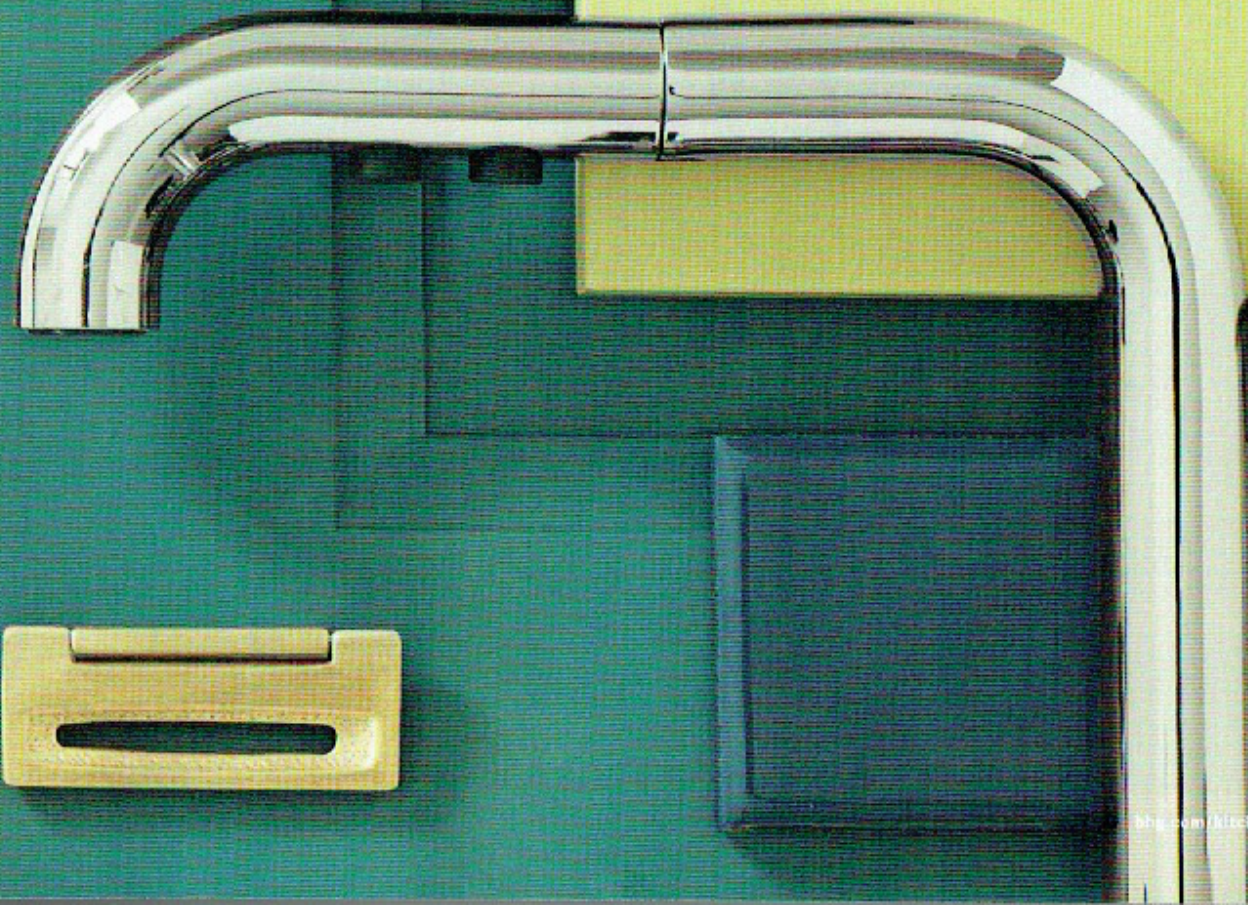

DESIGNER

Located near Boston, Kristina Crestin designs with special attention to architectural details, materials, and color. Visit kristinacrestindesign.com to find out more.

“Allow the kitchen to be more creative and fun—mix vintage and modern in a successful way for a fresh take on your style.”

Kristina Crestin
Designer

These colorful tiles inspired the palette. It is OK to splurge on the perfect tile because the backsplash area is so small.

Adding 6-inch casters brings a prefab table up to 36 inches tall (standard countertop height)—perfect for an island.

DO-IT-YOURSELF KITCHEN IDEAS

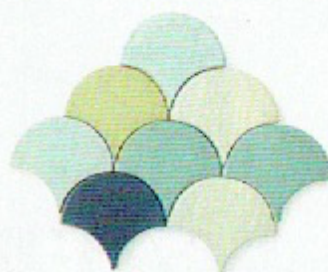

From tiling to decorating, it's easier than you think to put a personal touch on your kitchen. BHG.com/KitchenProjects

FAUCET
Purist single-hole pullout
in polished chrome | \$495

TILE
Shapes collection fan
tile | \$43 per square foot
Tabarka Studio
tabarkastudio.com

HARDWARE
Streamline hook in
Slate | \$16
Anthropologie
anthropologie.com

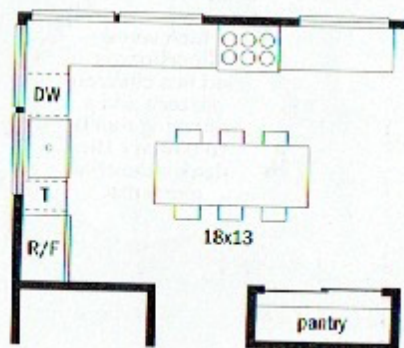

THE SOLUTIONS

1. Removing the peninsula opens the kitchen to the adjacent dining room, while new windows enhance the view and natural light.

2. The island on wheels provides both a place to sit and a work area as needed. Plus, it can be moved out of the way or into another room to serve as a buffet.

3. Adding custom doors to stock cabinet bases and picking a vibrant color brightens the space. The range and backsplash top off the look.

4. Painting inside the pendant lights, do-it-yourself concrete countertops, salvaged pantry doors (not illustrated), and using hooks as drawer pulls add budget-friendly personal touches.

\$27,390

New bypass windows give the kitchen an urban look. Plus, by sliding open sideways, they open the kitchen to the patio.

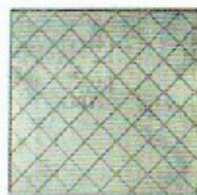

Rich wood floorboards laid in a chevron pattern add a warming touch to balance the sleek industrial elements.

TILE
Versailles Mesh in Silver Flake Rustic | \$114 per square foot
Ann Sacks
annsacks.com

HARDWARE
Ted Boerner tab pendant in silicon bronze light | \$80
Rocky Mountain Hardware
rockymountainhardware.com

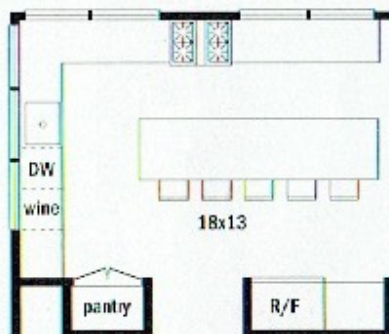

THE SOLUTIONS

1. An urban restaurant design gives the kitchen easy ways to entertain while cooking: dedicated beverage areas outside the work core, seating at the island, long expanses of countertop work space, and professional-grade appliances.

2. The bronze sink, dangling light fixtures, and whimsical stools meld with the industrial design and prevent a cold or impersonal vibe.

3. A deep, sophisticated color palette is illuminated by metallic finishes and natural light.

4. An adjacent powder room becomes a new pantry, while the old pantry location now houses the refrigerator and a convenient serving station.
